

HALF MOON LAKE PROTECTION  
AND REHABILITATION DISTRICT

May 5, 1994

A lot has happened since we last met. The Lake Study report by Barr Engineering is about ready for distribution. We will have copies at the Spring meeting. The Commissioners and members of the Wetlands Committee will be meeting with a representative of the DNR on May 14 to look at some ideas about preserving the wetlands in the Harder Creek area and in the Tamarack Bay area. Jim Smith is heading up a committee to hold our Summer Lake Picnic. Another lake clean up event is being scheduled. Cabin owners are planning on shoreline improvements. The Balsam Branch Priority Watershed Project Committee is planning a lake fair. Loon nests have been built and placed. Fishing looks good. Boating, skiing, jet skiing and some old fashioned relaxation are all looking good. I'm looking forward to a great summer.

Sincerely,

David J. Butler, Chairman of the Board of Commissioners
